3. AYUQUINA NAVAS DANNY MATEO

4. BAEZ JARAMILLO GABRIEL ALEJANDRO

5. BLACIO MACHUCA JULIO CESAR

- Trip Duration Calculation
Automatically calculates how many days a trip lasts between two dates, validating date formats and ensuring end date is after start date.
POST <http://35.239.79.6:3005/api/business-rules/trips/calculate-duration>
- Distance Calculation Between Destinations
Calculates the distance in kilometers between two geographic points using the Haversine formula, validating coordinate ranges (latitude: -90 to 90, longitude: -180 to 180).
POST
<http://35.239.79.6:3005/api/business-rules/destinations/calculate-distance>
- Budget Type Detection
Automatically classifies the budget into "budget" (< \$100/day), "medium" (\$100-\$300/day), or "luxury" (> \$300/day) based on total budget and trip duration.
POST <http://35.239.79.6:3005/api/business-rules/itineraries/detect-budget-type>

6. CÁCERES VILLAGOMEZ GERMAN PATRICIO

- **User Registration Validation**

Checks if the provided email and username meet business rules for user registration (required, format, uniqueness).

GET

<http://35.239.79.6:3005/api/business-rules/users/validate-registration?email=test@example.com&username=testuser>

- **Trip Creation Validation**

Validates trip creation data, ensuring required fields (userId, title, dates, budget) comply with business rules (mandatory, valid ranges).

GET

<http://35.239.79.6:3005/api/business-rules/trips/validate-creation?userId=12345&title=Viaje%20a%20Lima&startDate=2026-02-01&endDate=2026-02-10&budget=1000>

- **Destination Creation Validation**

Verifies destination data (name, country, coordinates) against business rules, such as required fields and valid coordinate ranges.

GET

<http://35.239.79.6:3005/api/business-rules/destinations/validate-creation?name=Lima&country=Peru&lat=-12.0464&lng=-77.0428>
