

API Endpoints – Minimarket Tatyly (Corrected)

Table 1: CRUD Resources (Data Management)

Standard operations for Products, Categories, Users, Reviews, and Suppliers.

Method	URI	Description	Status	Request Example	Response Example
GET	/api/products	List products	200	{ "page": 1, "category": "Dairy" }	{ "products": [{"id": 1, "name": "Milk"}], "total": 50 }
GET	/api/products/{id}	Get product details	200	{ "id": 1 }	{ "id": 1, "name": "Milk", "price": 1.20 }
POST	/api/products	Create product	201	{ "name": "Coke", "price": 1.50, "stock": 50 }	{ "created": true, "productId": 50 } ¹
PUT	/api/products/{id}	Update product	200	{ "price": 1.60, "stock": 45 }	{ "updated": true } ²
DELETE	/api/products/{id}	Remove product	200	{ "id": 1 }	{ "deleted": true } ³

GET	/api/products/top-selling	Get best sellers	200	{ "limit": 10 }	{ "top": [{ "id": 3, "sales": 500}] } ⁴
GET	/api/products/search	Search products	200	{ "q": "Snacks" }	{ "results": [{ "id": 5, "name": "Chips" }] }
GET	/api/products/{id}/price-history	Price history	200	{ "id": 1 }	{ "history": [{ "date": "2024-01-01", "price": 1.0}] }
GET	/api/categories	List categories	200	{ }	{ "categories": [{ "id": 1, "name": "Dairy" }] }
GET	/api/categories/{id}	Get category	200	{ "id": 5 }	{ "id": 5, "name": "Dairy" }
GET	/api/categories/{id}/products	Products by cat.	200	{ "id": 5, "limit": 20 }	{ "products": [{ "id": 1, "name": "Milk" }] }
POST	/api/categories	Create category	201	{ "name": "Snacks", "desc": "Salty food" }	{ "created": true, "categoryId": 3 }

PUT	/api/categories/{id}	Update category	200	{ "name": "Salty Snacks" }	{ "updated": true }
DELETE	/api/categories/{id}	Delete category	200	{ "id": 5 }	{ "deleted": true }
GET	/api/users	List users	200	{ "role": "client" }	{ "users": [{"id": 10, "email": "user@test.com"}] }
GET	/api/users/{id}	Get user detail	200	{ "id": 99 }	{ "id": 99, "role": "client", "active": true }
PUT	/api/users/{id}	Update user	200	{ "role": "admin", "isActive": true }	{ "updated": true }
DELETE	/api/users/{id}	Delete user	200	{ "id": 99 }	{ "deleted": true }
GET	/api/products/{pid}/reviews	Get reviews	200	{ "productId": 10 }	{ "reviews": [{"rating": 5, "comment": "Good"}] }
POST	/api/products/{pid}/reviews	Add review	201	{ "rating": 5,	{ "created": true,

				"comment": "Great!" }	"reviewId": 101 }
PUT	/api/reviews/{id}	Edit review	200	{ "rating": 4, "comment": "Okay." }	{ "updated": true }
DELETE	/api/reviews/{id}	Delete review	200	{ "id": 555 }	{ "deleted": true }
PUT	/api/reviews/{id}/ approve	Approve review	200	{ "id": 555 }	{ "status": "approved" }
PUT	/api/reviews/{id}/ reject	Reject review	200	{ "reason": "Spam" }	{ "status": "rejected" }
GET	/api/purchases	List purchases	200	{ "date": "2024-01-01" }	{ "purchases": [{ "id": 700, "total": 500}] }
GET	/api/purchases/{id }	Purchase detail	200	{ "id": 700 }	{ "id": 700, "items": [...] }
POST	/api/purchases	Register purchase	201	{ "supplierId" : 4, "total": 500 }	{ "created": true, "purchaseId": 700 }
PUT	/api/purchases/{id }/status	Update status	200	{ "status": "received" }	{ "updated": true, "status": "received" }

Table 2: Business Logic & Transactions

Complex operations involving logic (Auth, Cart, Checkout, Reports).

Method	URI	Description	Status	Request Example	Response Example
POST	/api/auth/register	Register user	201	{ "email": "joe@test.com", "pass": "123" }	{ "created": true, "userId": 20 } ⁵
POST	/api/auth/login	Login	200	{ "email": "joe@test.com", "pass": "123" }	{ "token": "jwt_ey...", "user": { "id": 20 } } ⁶
POST	/api/auth/email-verifications	Verify email	200	{ "token": "abc-verification-token" }	{ "verified": true }
POST	/api/auth/password-reset-requests	Request reset	200	{ "email": "joe@test.com" }	{ "sent": true, "message": "Check email" }
POST	/api/auth/password-resets	Reset password	200	{ "token": "res-tok", "newPass": "456" }	{ "reset": true }

POST	/api/auth/logout	Logout	200	{ }	{ "logout": "success" }
GET	/api/users/me	My Profile	200	{ }	{ "id": 20, "name": "Joe", "email": "joe@test.com" }
PUT	/api/users/me	Update Profile	200	{ "phone": "+593999", "city": "Quito" }	{ "updated": true }
DELETE	/api/users/me	Close Account	200	{ "confirm": "YES" }	{ "deleted": true }
GET	/api/users/me/loyalty	Loyalty Points	200	{ }	{ "points": 150 }
GET	/api/cart	Get Cart	200	{ }	{ "items": [{"id": 1, "qty": 2}], "total": 10.5 }
POST	/api/cart/items	Add to Cart	200	{ "productId": 50, "quantity": 1 }	{ "added": true, "cartSize": 3 }
PUT	/api/cart/items/{itemId}	Update Qty	200	{ "quantity": 5 }	{ "updated": true,

					"subtotal": 25.0 }
DELETE	/api/cart/items/{itemId}	Remove Item	200	{ "itemId": "item_123" }	{ "removed": true }
DELETE	/api/cart	Clear Cart	200	{ }	{ "cleared": true }
POST	/api/checkout	Process Order	201	{ "address": "Quito", "card": "visa" }	{ "orderId": 123, "status": "created" } ⁷
GET	/api/checkout/summary	Order Summary	200	{ }	{ "subtotal": 100, "tax": 12, "total": 112 }
GET	/api/orders	My Orders	200	{ "page": 1 }	{ "orders": [{"id": 123, "total": 112}] }
GET	/api/orders/{id}	Order Detail	200	{ "id": 123 }	{ "id": 123, "status": "pending", "items": [...] }
PUT	/api/orders/{id}/cancel	Cancel Order	200	{ "reason": "Changed mind" }	{ "status": "cancelled", "refunded": true }

PUT	/api/orders/{id}/status	Update Status	200	{ "status": "shipped" }	{ "status": "shipped", "updated": true }
POST	/api/admin/users	Create Admin	201	{ "email": "admin@sys.com", "role": "admin" }	{ "created": true, "userId": 1 }
POST	/api/admin/promotions	Send Promo	200	{ "msg": "Sale!", "to": "all" }	{ "sent": true, "count": 500 }
GET	/api/admin/dashboard/stats	KPI Stats	200	{ }	{ "sales": 5000, "users": 150 }
GET	/api/admin/system/health	System Health	200	{ }	{ "status": "UP", "db": "connected" }
POST	/api/admin/products/{id}/stock-adjustments	Adjust Stock	200	{ "adjust": 10, "reason": "Restock" }	{ "adjusted": true, "newStock": 60 }
GET	/api/admin/reports/sales	Sales Report	200	{ "start": "2024-01-01" }	{ "totalSales": 15000, "transactions": 300 }

GET	/api/admin/reports/inventory	Inventory Report	200	{ "format": "json" }	{ "lowStockItems": 5, "totalValue": 20000 }
GET	/api/admin/reports/users	Users Report	200	{ "active": true }	{ "activeUsers": 120, "newThisMonth": 10 }
GET	/api/admin/reports/revenue	Revenue Report	200	{ "year": 2024 }	{ "Q1": 5000, "Q2": 6000 }
